

Rural village development strategy

Rural village development strategy

18 oktober 2021

"A **rural village development strategy** is a **planning tool** for the municipality in the development of smaller villages and a **development process** to take advantage of local initiatives that contribute to a positive development in the villages and in the municipality as a whole"

Development strategy

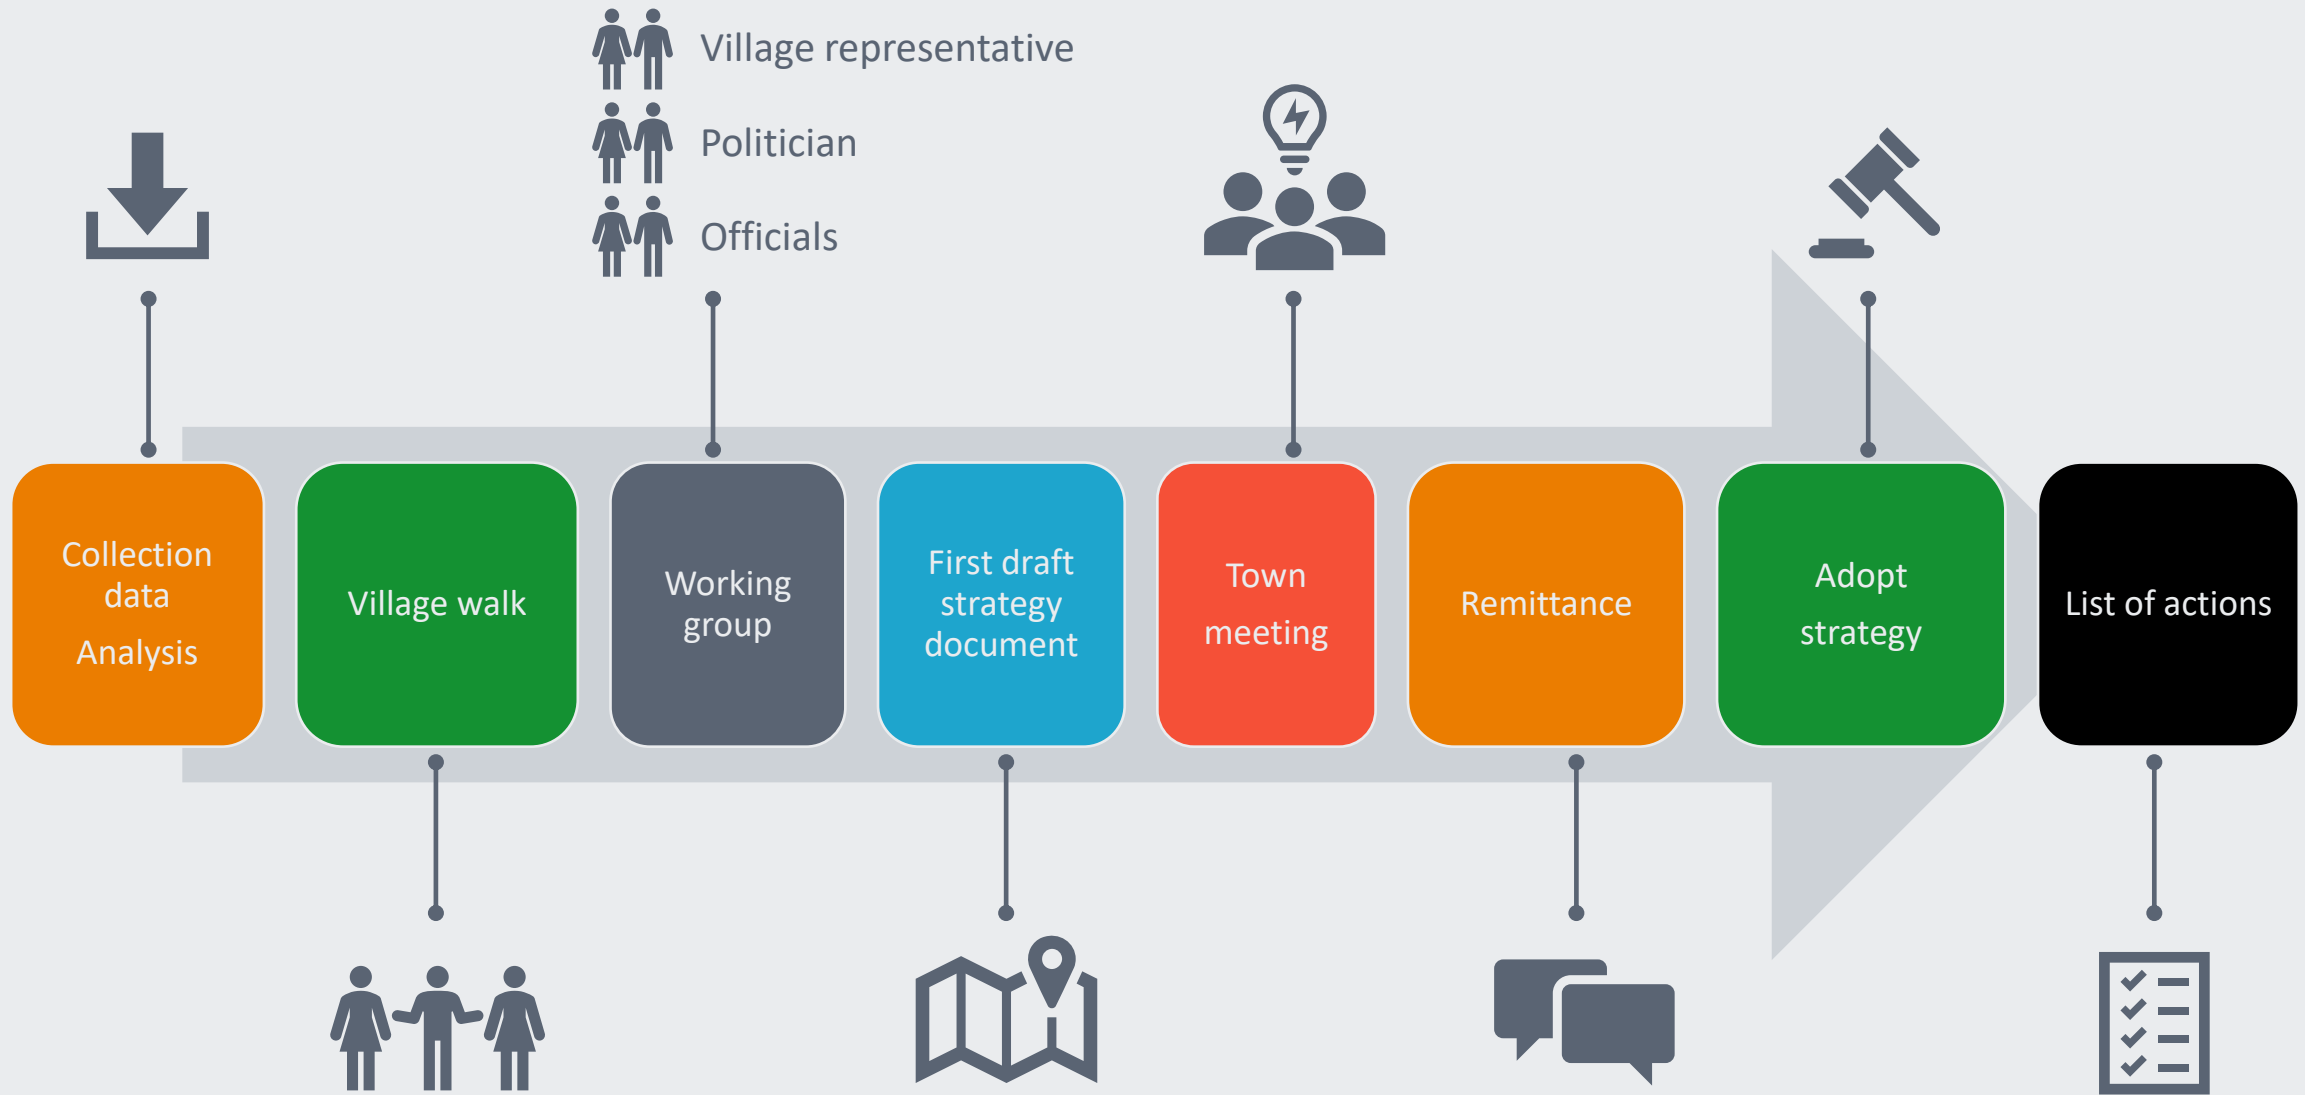

”The future”

- Hunnestad 2030
- More housing
- Developed service
- Well-functioning water and sewage supply
- Developed meeting places
- Increased sustainable transport
- A connected Hunnestad
- Well-preserved cultural environment
- An outlook of Hunnestad in 2050
- Development map

Rural village development strategy

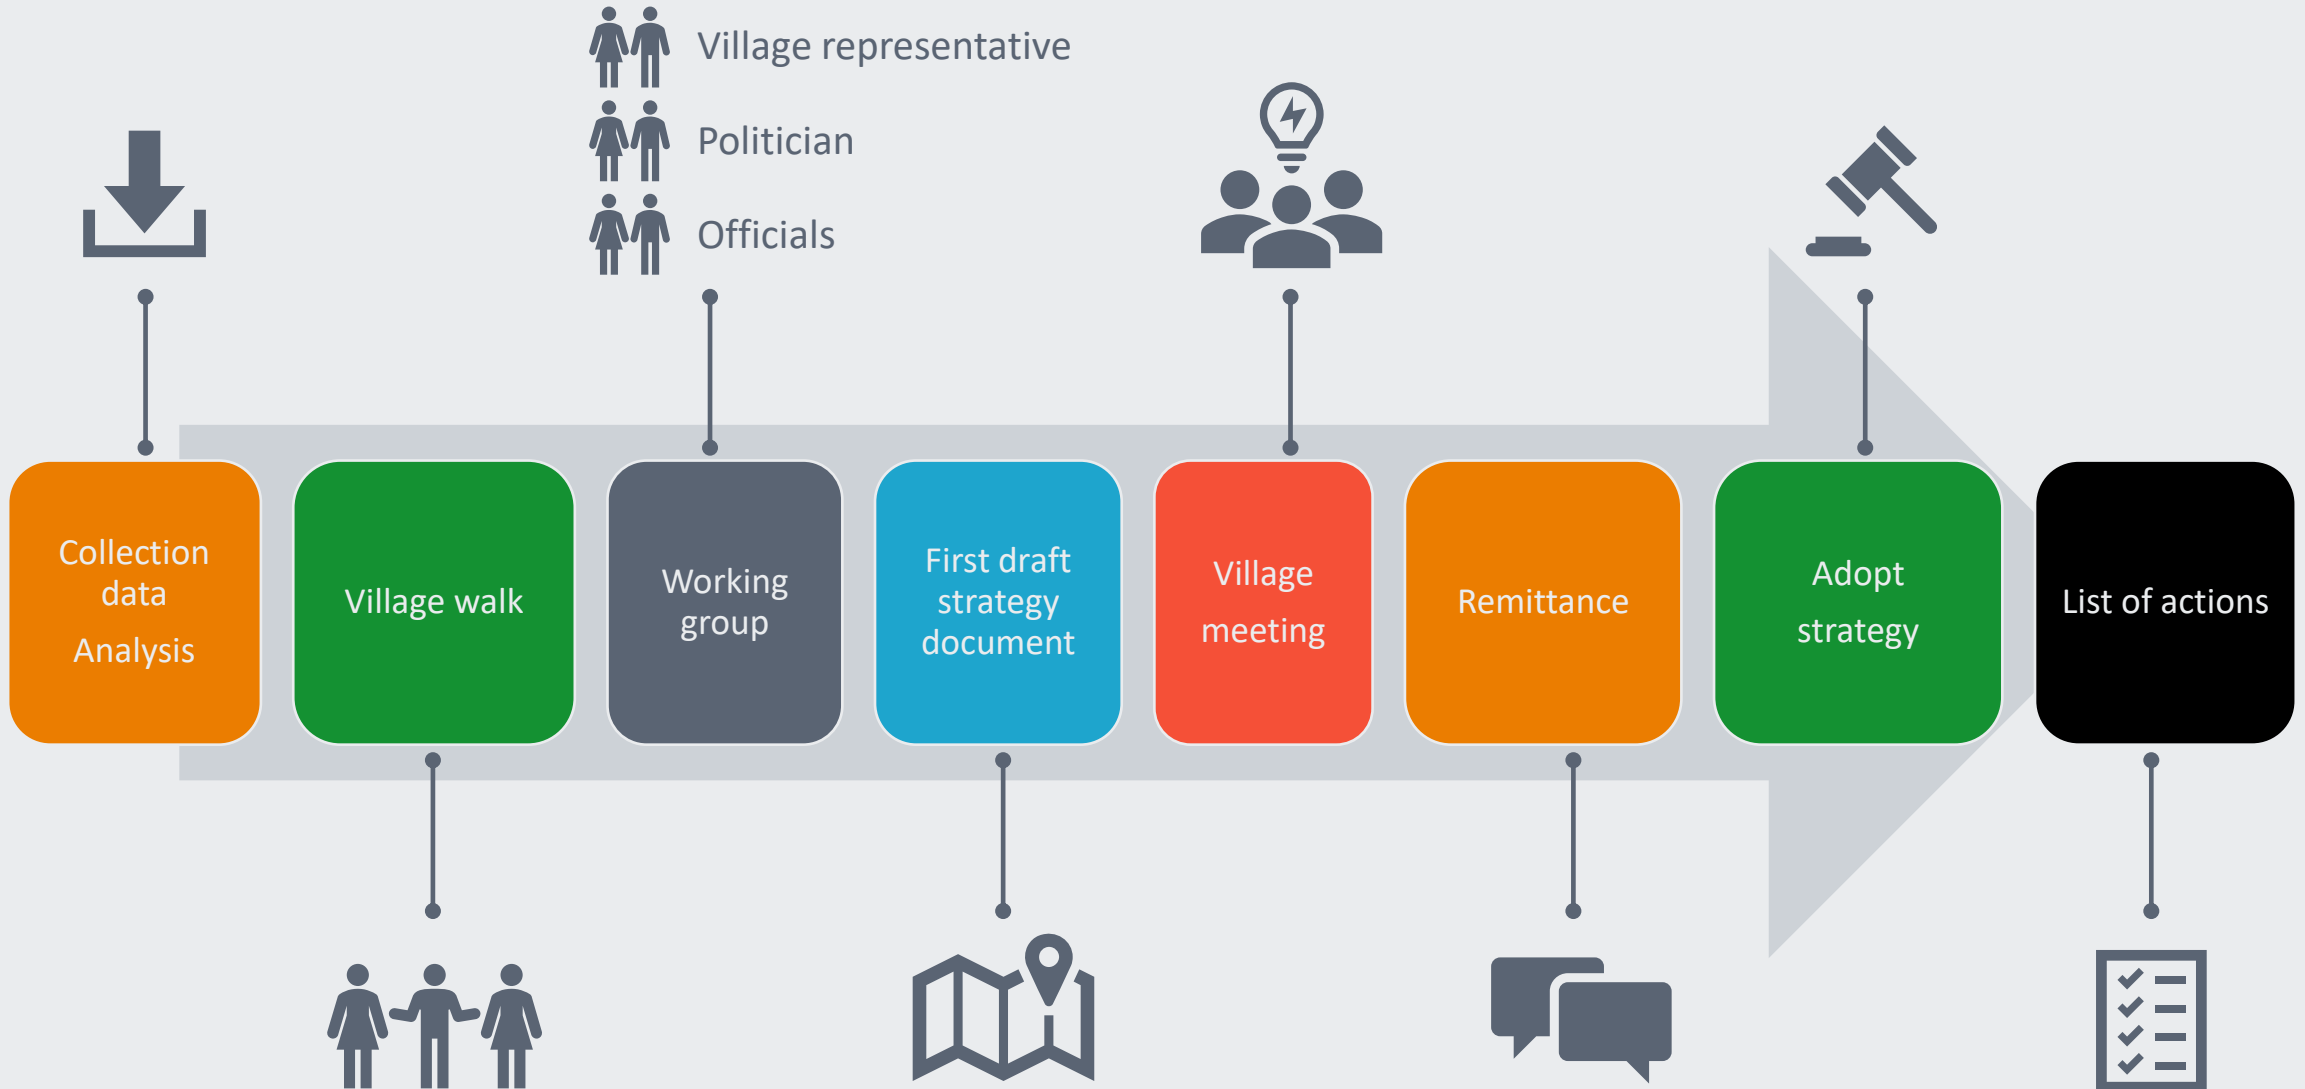

Village meetings

18 oktober 2021

List of actions – Who is responsible?

- The municipality
- The municipality with support from the local action group
- The local action group (the villagers)
- The local action group with support from the municipality
- The municipality will propose to the County administrative board
- The municipality will propose to the County traffic board

And so on.....

Actions – examples

Challenges in the process

- To find the best process forward – The municipality is not used to have a developing process.
- **The size of the village is a challenge** – The municipal role in these smaller villages are limited
- **Time** – Different definition of when things can happen. Democracy is not that fast.
- **Information** – A big part of the process have also been information about what the municipality can and can not do.
- The planning tool that theses villages hade befor was made with a more in dept analysis and more investigation. This will now be done when there is a need for it.

Success factors

- The work group composition
- The village walk
- The action list – stating who is responsible for the actions
- The developing process – being able to evaluate and elaborate over time
- The positive response from the villagers and from the politicians
- Combines the strength of the village with the role of the municipality
- Makes the people in the villages feel included, listened to and involved.
